NIST Safety and Health Protocols and Practices Preventing COVID19 on Campus

Elizabeth Mackey, Ph.D.

Director, Office of Safety, Health and Environment
Chief Safety Officer

COVID-19 Health and Safety at NIST

- ✓ NIST met OPM/OMB criteria, entered Phase 1 on July 6, 2020
- ✓ Ongoing implementation of OPM/OMB and DOC guidance at NIST, monitoring external and internal conditions
- ✓ COVID-19 health and safety requirements formalized in NIST Directives
- ✓ NIST Training "NIST Safe Return to Campus for Phase 1" Version 1 issued in June; currently on version 4
- ✓ Refined procedures for reporting and responding to possible COVID-19 cases
- ✓ Focus on communicating new requirements and answering questions: Town Hall meetings, FAQs, website, guidance

NIST Safety and Health Requirements Formal Directives

NIST Notice 2200.00 Phased Re-opening During Pandemic Conditions

NIST Notice 2200.01 Requirements to Mitigate Spread of COVID-19 On Campus

NIST Notice 2200.02 Use of Cloth Face Coverings During Pandemic Conditions

NIST Notice 2200.03 Visitor and Contractor Protocols for Mitigating COVID on Campus

Updated NIST Suborder 7101.20 Work and Worker Authorization based on Hazard Reviews Added Requirement to update Hazard Reviews during off normal operations

Also Issued:

OHRM's "Supervisors' Guide: Talking to Staff About Returning to Onsite Work" 20 Individual guides to help implement the safety requirements

STRATEGY TO PREVENT COVID-19 TRANSMISSION AT NIST

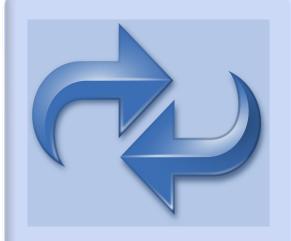

KEEP COVID OFF CAMPUS, KILL VIRUS, RESPOND TO POTENTIAL CASES, BARRIERS TO EXPOSURE, REDUCE DOSE

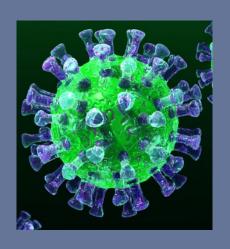

Person-to-Person: Ill/Infectious Person

X Daily Health and Exposure Screening

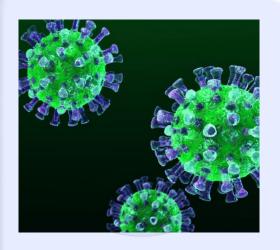

Person-to-Person, Respiratory Droplets:

- X Face Coverings
- X Workplace Distance
- X Time around others (<15 min)

Object-to Person:

- X Routine cleaning
- X Incident-based disinfection
- X Wash/sanitize hands
- X Time between space uses (72 h)

Person-to-Person Shared Spaces, Virus in Aerosols

- X Ventilation (dilution)
- X Distance
- X Time spent in common areas

NIST Daily COVID-19 Screening Covers:

- Symptoms
- COVID test status
- Recovering from COVID
- Exposure to others
- Travel to high risk areas

Requirement to stay off campus and self-monitor

COVID-19 Screening

Please review these questions each day prior to coming to the NST campus. You are not required to retain copies or to provide copies of this form to anyone at NST.

Symptom Checklist: Today, are you experiencing any of the following symptoms not caused by another known condition?	Yes	No
Chugh		
Shortness of breath or difficulty breathing (urrelated to physical activities)		
Rever over 10.4 °F (38 °C) or Chills		
Headache (bad, or severe)		
Miscle pain/ body aches (unrelated to physical activities)		
Sure throat		
Newloss of taste or small		
Vimiting/ nausea or diarrhea		
In the last 10 days have you tested positive for COMD-19?		
COMD-19 Return to Campus: if you are recovering from COMD-19, are all of the following true:	True	False
You have not had a fever (>0.0.4b) for mure than 24 h and you are not taking fever-rechaing medications; it has been more than 10 days since onset of symptoms; and your symptoms have improved.		
Exposure Checklist: In the last 14 days have you:	Yes	No
Spent more than 15 minutes, within 6 feet (or 2 meters) of someone with known or suspected to have COMD 19?		
Spent anytime in your home with someone with confirmed or suspected COMD B or who currently has COMD like symptoms?		
Travel Checklist: In the last 14 days have you:	Yes	No
Traveled to or from a state with a stay-at-home order in place, or with a high rate of COAID B spread*		
Traveled internationally to a country with a Level 3 or Level 4 Health Advisory. See U.S. State Department Travel Advisories.		

See CDC: List of Symptoms

Contact your supervisor or sponsor if you answered "Yes" to any of these questions. You are not permitted to enter campus today (unless you are recovering from COVID 19 and meet criteria in the next section).

You may not enter the campus if you tested positive for COVID 19 in the last 10 days, regardless of whether or not you have symptoms.

See CDC Discontinue Isolation for Persons with COVID D

Inform your supervisor or sponsor if this applies. You may be permitted on campus if you meet these criteria. If you

answered "False" you are not permitted to enter campus today.

See CDCCOMD19 Prevention Tips

Contact your supervisor or sponsor if you answered "Yes" to either of these questions, If you answered "Yes", you are not permitted to enter campus today.

See U.S. State Department Travel Advisories

States with high rates of COVID9 spread are listed below. If you simply traveled through the state, you may answer "No."

Contact your supervisor or sponsor if you answered "Yes" to either of these questions. If you answered "Yes," you are not permitted to enter campus today.

*Hiketive Dates Oct. 5 – 12, 2020, states with high rates of COVID-19 spread include: AR, IA, ID, KS, MD, MT, ND, NE, CK, SD, UT, WL, WK.

Training: Comprehensive, detailed and up to date

NIST Safe Return to Campus Training for Phase 1 - Version 4

Required for all returning staff

>3558 Staff have completed this training

- Definitions and Terms
- 2. COVID-19 Spread, Symptoms
- 3. High-risk Staff
- 4. Supervisor Responsibilities
 - 1. Updating Hazard Reviews/JHAs
 - 2. Controls to mitigate exposure
 - 3. Risk for exposure
 - 4. Workplace distancing
 - 5. Reporting, disinfections and contact notification
- 5. Staff Responsibilities
 - Daily personal health screening protocols
 - Reporting to supervisors
 - Badging-in procedures at campus access points
 - Use of cloth face coverings or masks
 - Workplace distancing
 - Traveling about campus
 - Participation in disinfection efforts
- 6. Recommended Best Practices
- 7. Visitors and Contractors
- 8. Resources and Additional Information

Response to Potential Cases: Report, Disinfect and Notify

Report

Status Report to DOC: Teleworking, symptomatic, no longer symptomatic, self-monitoring, COVID-19 positive, COVID-19 recovered BOO issued flow chart to assist staff and managers in reporting data

Disinfect

When staff report COVID-19 symptoms and have been on campus within 48 h of experiencing symptoms, spaces they occupied are either disinfected by OSHE or closed for a minimum of 72 h. Affected building staff are notified of room closures.

Notify

Staff who spent 15 min within 6' of of the symptomatic person are notified of the potential for exposure to COVID-19 and instructed to quarantine for 14 d or until notified that the symptomatic person tested negative for COVID-19 OSHE leads this process using template and set of emails to ensure consistency

Focus on Communication

Town Hall Meetings

FAQs from Town Halls posted on NIST net (10 categories, 110 questions)

Guide and flowchart on reporting requirements

Guides for health and safety requirements and best practices (20 guides)

Comprehensive guide for supervisors on HR policies, practices, guidance on high risk staff

Signage on campus provides reminders

Safety web site—links to directives, guides, training, signs, FAQs

External Criteria for Phased Re-opening (data from Oct 7 report)

External Criteria	Colorado	Δ	Boulder Co.	Δ	Maryland	Δ	Montgomery Co.	Δ
14-d downward trend in new COVID-19 cases	SED: No significant downward trajectory	=	SED: Significant downward trajectory	↑	SED: No significant rebound	=	SED: No significant rebound	Ξ
	OSHE: 3 days negative slopes following >14 days of positive slopes for 7-d rolling averages	1	OSHE: 7 d negative slopes after 14 d of positive slopes for 7-d rolling averages	↑	OSHE: >14 d negative or near zero slopes for 7-d rolling averages	1	OSHE: 3 d positive slopes after negative or near zero slopes for 7-d rolling averages	
14-d downward trend in flu and flu-like illnesses	Sustained decrease 196 d	1	NA		Sustained decrease 154 d	1	NA	
Hospital Capacity Targets: <70% occupied beds, <80% ICU beds	49.2% 2.9%	↑	76% 86%	↑	70.9% 6.0%	<u></u>	68% 60%	\downarrow
% Positive Tests (<5%)	3.78% (7-d avg)	1	2.6% (5-d avg)	1	2.95% (7-d avg)	1	2.6% (3-d avg)	\bigcap
Testing Capacity Gap Nominal target (10%)	5.1%	Ţ	NA		7.7%	1	NA

Internal Criteria for Phased Re-Opening

	Date	Boulder Campus	Gaithersburg Campus			
New Safety Protocols Issued	No change	All new directives approved and posted on iNET.				
Return to Campus Training	10/6/20	V4 Safe Return to Campus available (3541 staff have completed the training)				
Disinfectant and Hand sanitizer (30-d supply)	No Change	Boulder has sufficient supplies for phase 1. Janitorial services contractor is required to acquire and maintain a 30-day supply. Minor insufficiencies will be covered by Gaithersburg supplies if needed.	caithersburg has sufficient supplies for phase 1. canitorial services contractor is required to cquire and maintain a 30-day supply. FPM has acquired and will maintain a separate 0-d supply.			
Supplemental Ventilation	10/6/20	Ventilation evaluated for multi-user spaces on a case-by-case basis. To date >78 evaluations, 8 supplemental units needed	Ventilation evaluated for multi-user spaces on a case-by-case basis. To date, >65 evaluations. 8 supplemental units needed			

Internal Staffing and COVID-19 Case Metrics

- --- Boulder Staff on Campus
- Gaithersburg Staff on Campus
- ······ Linear (Boulder Staff on Campus)
- Linear (Gaithersburg Staff on Campus)

COVID Responses on NIST Campuses

- As of Phase 1 (July 6, 2020), there were 17 possible cases in which a person was on campus ≤ 48 h of having COVID-like symptoms
- Space disinfected for 10 cases
- Close contacts notified for 3 cases
- None of the 17 tested positive

Staffing: Gaithersburg (10% to 12%)
Boulder (17% to 19%)

Total COVID-19 Cases Recorded: 13 during Phase 1, none on campus while infected
