**ASBESTOS FIBER ANALYSIS  
TEST METHOD SELECTION LIST**

---

**Instructions:** All PLM laboratories are required to apply for 18/A01. Accreditation for the 18/A03 method will not be granted without 18/A01.

Please check the test method(s) for which you are requesting accreditation.

	<b>NVLAP Code</b>	<b>Test Method Description</b>
<b>Bulk Asbestos Analysis (PLM)</b>		
<input type="checkbox"/>	18/A01	EPA 600/M4-82-020: Interim Method for the Determination of Asbestos in Bulk Insulation Samples
<input type="checkbox"/>	18/A03	EPA 600/R-93/116: Method for the Determination of Asbestos in Bulk Building Materials
<b>Airborne Asbestos Analysis (TEM)</b>		
<input type="checkbox"/>	18/A02	U.S. EPA's "Interim Transmission Electron Microscopy Analytical Methods- Mandatory and Nonmandatory-and Mandatory Section to Determine Completion of Response Actions" as found in 40 CFR, Part 763, Subpart E, Appendix A.
