

# Asks of the NCST Advisory Committee

**Dr. Howard Harary**  
**Director**  
**NIST Engineering Laboratory**

# Asks of the NCST Advisory Committee

- Can the Committee recommend criteria for deployment teams to various hazard events (EQ, hurricane, wildfire, etc.) to ensure the right expertise is available to collect necessary data and make assessments?
- Can the Committee advise NIST on best practices for standardizing the type and format of data collected during deployment for various hazard events?
- Please review the Engineering Laboratory's First Level Hazard Review for field deployments, and respond with best practices for improving field safety.
