Subject: Preliminary Cybersecurity Framework Comments
To: "csfcomments@nist.gov" <csfcomments@nist.gov>

Hello,

The Preliminary Cyber security Framework seems to cover all of the core components necessary.

Comment:

Under section 3.2 **-Establishing or Improving a Cybersecurity Program**

Establishment of an Incident Performance Measure Control. – Composed of a Performance Matrix to monitor the effectiveness of Mitigation and Improvements applied to a Cybersecurity incident for real-time situational awareness decision making on the desired results.

Please feel free to contact me for details.

Thank you for all that you do, to protect our country and IT Infrastructure.
