Subject: Cybersecurity Framework [CF]

Keeping it simple:

1 - Law & Order is the essence of civilized society; therefore, violation of CF is to have laws for both local, national & international violations of the CF...Jail time, fines and withdrawal of US funds for international violations is madatoryt...We seem to have lost the need & value for discipline in this multi-cultural, secular society that has consistently challenged the values of the Judeo-Christian - God Centered American way...Values/laws are driven by a WORLD-VIEW, ...

"We hold these truths to be self-evident, that all men are created equal, that they are endowed by their Creator with certain unalienable Rights, that among these are Life, Liberty and the pursuit of Happiness. — That to secure these rights, Governments are instituted among Men, deriving their just powers from the consent of the governed, — That whenever any Form of Government becomes destructive of these ends, it is the Right of the People to alter or to abolish it, and to institute new Government, laying its foundation on such principles and organizing its powers in such form, as to them shall seem most likely to effect their Safety and Happiness." ...this statement from the providence of God is a God-Centered WORLD-VIEW...Either we embrace these truths, fight for these truths or the American way of life, the values of the American way of life is doomed to die...A Nation that stands for nothing, will fall for any thing...

2 - A US Federal Judge & the President needs to sign a warrant to allow any governmental body to begin a search of the CF system to get the facts that ultimately will call for a Grand Jury to indict someone abusing the system...
