ATTENDEE GROWTH

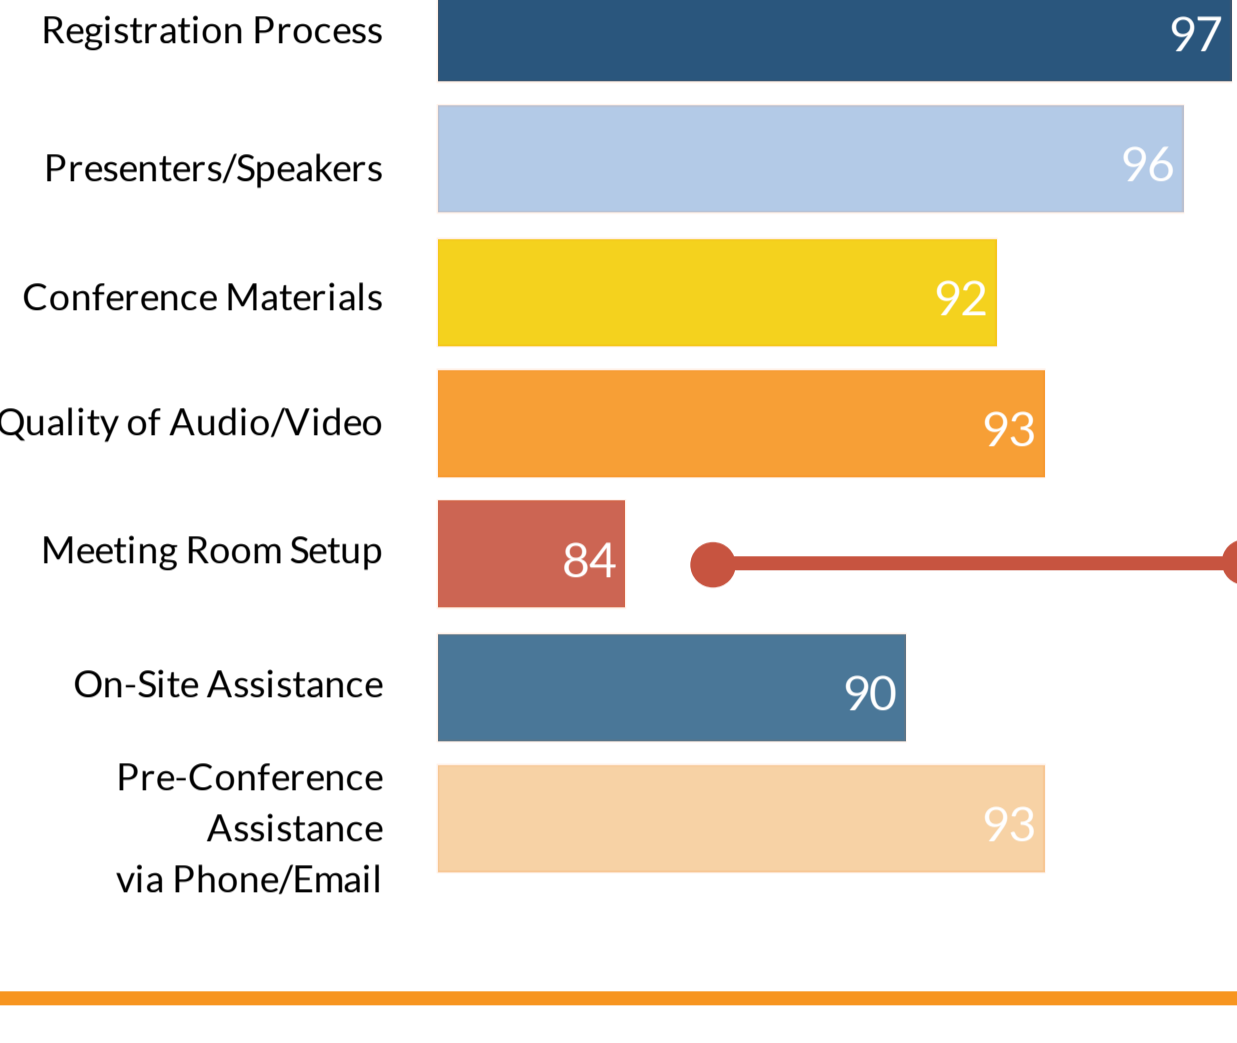

Since 2016

ATTENDEE BREAKDOWN

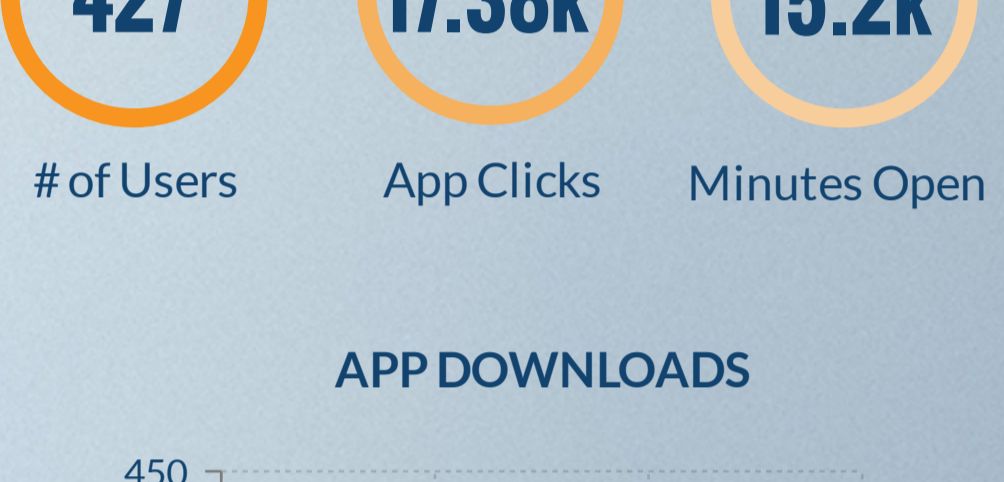

ATTENDEE SATISFACTION

We hear you!
The meeting rooms were quite a stretch! We intend to improve the proximity of meeting rooms for future Stakeholder Meetings.

WHAT ATTENDEES ARE SAYING

"At the Public Safety Broadband Stakeholder Meeting in San Diego this week. I thought I was a techie...but after attending a couple of sessions I felt behind. Some **mind-blowing** projects being worked on."

"Excellent chance to see developments in public safety communications, great **networking** with research, industry and peers in the field."

"I liked the **track based presentations**. I felt it allowed me to cover a lot of topics **relevant** to my work, areas that did not pertain to me."

ATTENDEE RECOMMENDATIONS

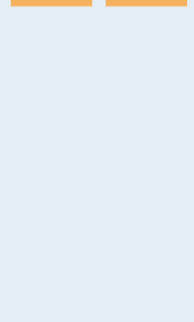

2017

After 2017's Stakeholder Meeting, many suggested to "include additional time to **network**" into the conference schedule.

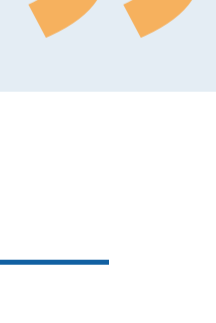

Your feedback makes the meeting better!

2018

THIS YEAR WE INCLUDED A NETWORKING HOUR INTO THE AGENDA

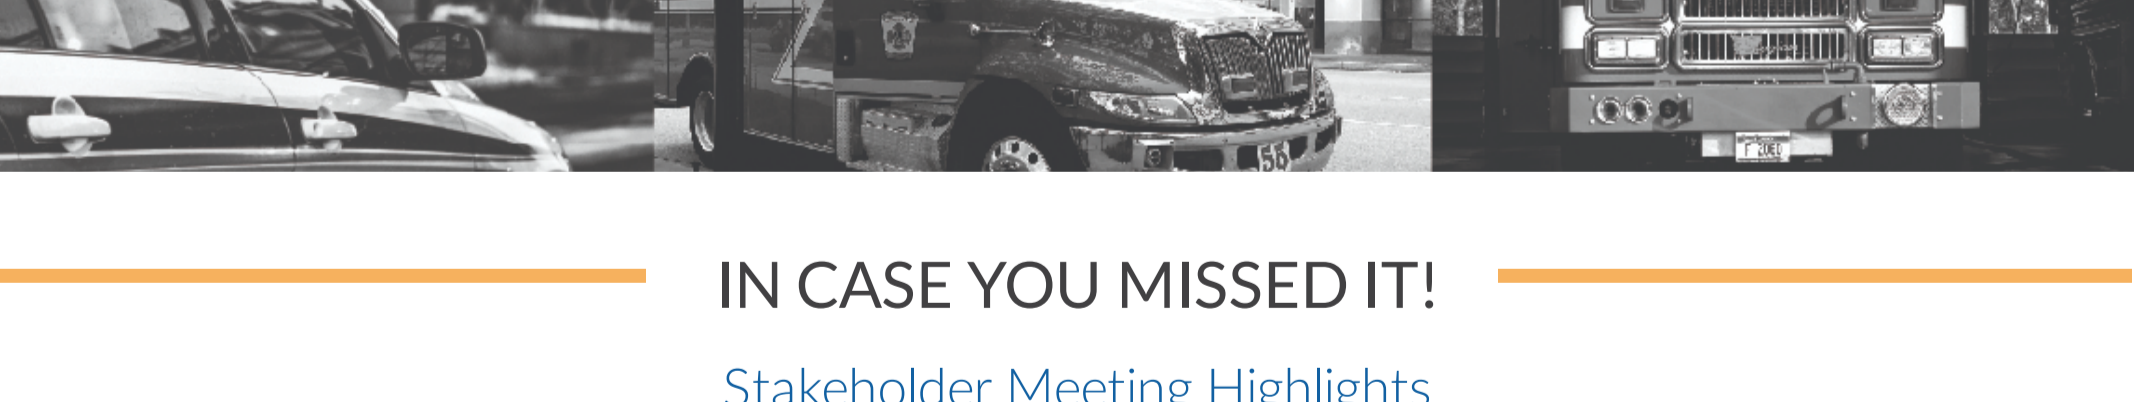

What I liked most about the conference was the ability to network with a large number of stakeholders in one place. If I traveled every day of the year I could never reach this many people in the public safety community (not even including academia and industry) or spend the amount of time with them that this opportunity provided!

2019

ATTENDEE RECOMMENDATIONS FOR NEXT YEAR

- Make technical content more approachable
- Expand viewing time for demonstrations
- Increase the proximity of meeting rooms

IN CASE YOU MISSED IT!

Stakeholder Meeting Highlights

4 FULL DAYS OF MEETING

50 min. PRESENTATIONS

VR HEADS UP DISPLAY LIVE **PRIZE CHALLENGE** JUDGING & AWARDS

CONCURRENT **MEETING TRACKS** ACROSS **7 RESEARCH AREAS**

OVER **40 ON-SITE DEMOS**
