**Subject:** AI RMF Feedback

Hi,

Thank you for being open to receive feedback on this topic. I think the 2nd draft has a lot of solid and foundational concepts we can iterate on at a conceptual level. For the measure section, it would be helpful if we have the measures that are currently in use. On the manage section, I think it would be good to integrate, reference, or reuse some of the concepts purposed in the FDA's "Proposed Regulatory Framework for Modifications to Artificial Intelligence/Machine Learning (AI/ML) - Based Software as a Medical Device (SaMD)" section IV, which can be found [here](#).

I look forward to seeing the next version published and let me know where I may be able to provide more contribution.

Respectfully,

**Bryan Nice, GCSA, GSEC, GCIH, GSTRT**
