Electronic Data Interchange - CIS/2

Steel Market Share

Source: FW Dodge

I invented drawings

I invented RFI's

Search for CIS/2 Partners

- AISC would like to partner with design/fabricator teams to prototype EDI in a real project environment
- AISC will contribute resources and funding to parallel live projects using CIS/2

Today's Agenda

- CIS/2 in concept
 - Chuck Eastman, Georgia Tech University
- Industrial sector migration to CIS/2
 - John Manuel, Bechtel Corporation
- Commercial project use of CIS/2
 - Mark Mosher, Amfab, Inc.
- Panel Discussion
 - Mark Holland, Paxton & Vierling Steel
 - Barry Butler, Design Data (SDS/2)
