

Jamie Fine is a Senior Economist and works to reduce the impacts of energy systems used to power buildings, transport and service people and produce and move goods. His areas of research and advocacy include design and implementation of market-based policy, modeling the economic, air quality, and health consequences of policy decisions, deploying smart grid for environmental and electricity customer benefits and facilitating the meaningful involvement of community stakeholders in environmental planning. Prior to joining EDF, Jamie was an Assistant Professor at the University of San Francisco, Department of Environmental Science, Environmental Studies Program.
