

ACTION: Notice of dismissal.

In February, 1939, Claire Pappas (Appellant) filed with the Department of Commerce (Department) a notice of appeal under Section 307(c)(3)(A) of the Coastal Zone Management Act of 1972, as amended, 16 U.S.C. 1456(c)(3)(A), and implementing regulations, 15 CFR Part 930, Subpart H. The appeal arose from an objection by the New York Department of State (State) to the Appellant's certification that her proposal to construct a deck at a restaurant in Freeport, New York would be consistent with New York's coastal management program.

In April, 1989, the State informed the Department that before the State lodged its consistency objection, the Corps of Engineers (Corps) had withdrawn without prejudice the Appellant's application for a permit to undertake the construction. The timing of the Corps' withdrawal of the application renders void the State's consistency objection. Moreover, it also eliminates both the Appellant's standing to appeal to the Secretary, and the Secretary's jurisdiction over this matter. Accordingly, the Department dismissed the appeal on May 23, 1989 for good cause pursuant to 15 CFR 930.128 (1988). That dismissal bars the Appellant from filing another appeal from the State's original objection to the aforementioned activities.

Affirmation of Datum for Surveying and Mapping Activities

AGENCY: National Oceanic and Atmospheric Administration, National Ocean Service, Charting and Geodetic Services.

ACTION: Notice.

SUMMARY: The Office of Charting and Geodetic Services (C&GS), National Geodetic Survey Division, has

completed the redefinition and readjustment of the North American Datum of 1927 (NAD 27), creating the North American Datum of 1983 (NAD 83). The interagency Federal Geodetic Control Committee (FGCC) affirmed NAD 83 is the official civilian horizontal datum for U.S. surveying and mapping activities performed or financed by the Federal Government. Furthermore, to the extent practicable, legally allowable and feasible, all Federal agencies using or producing coordinate information should provide for an orderly transition from NAD 27 to NAD 83.

FOR FURTHER INFORMATION CONTACT: Mr. James E. Stem, N/CG1x4, Rockwall Building, Room 619, National Geodetic Survey, NOAA, Rockville, Maryland 20852; phone: (301) 443-8749.

SUPPLEMENTARY INFORMATION: A Federal Register notice published on June 29, 1979 (FR Doc. 79-20169, Vol. 44, No. 127) by the National Oceanic and Atmospheric Administration provided notice of the establishment of a new Datum (NAD 83) to which the geographic and plane coordinate values for the National Network of Horizontal Geodetic Control would be referenced. For all published horizontal stations in the National Geodetic Reference System, NAD 83 values of geodetic position (latitude and longitude), and all subsequently derived plane coordinates are available from the National Ocean Service/National Geodetic Survey Division. For a discussion of the plane coordinate systems published, see the "Policy on Publication of Plane Coordinates" in FR Doc. 77-8847, Vol. 42, No. 57, March 24, 1977. The FGCC, chaired by the Director, C&GS, is mandated by the Office of Management and Budget to coordinate geodetic surveying performed or financed by the Federal Government.

Dated: June 2, 1989.

Thomas J. Maginnis,
Assistant Administrator for Ocean Services and Coastal Zone Management, NOAA.
