

NIST Update

Visiting Committee on Advanced Technology

Walter G. Copan

Under Secretary of Commerce for Standards and Technology
and NIST Director

- Agenda Review
- New VCAT Members
- Budget Update
- Recent NIST Highlights
- Security Update
- Equity in Career Advancement Update
- International Engagements
- Recent Awards

June 4, 2019

Session I: NIST Update

Session II: Administration's Priorities for Science and Technology

Session III: NIST Strategic Plan – Positioning NIST for a Changing S&T Environment

Session IV: Update on NIST Activities in Emerging Technologies

Session V: Update on NIST Lab-to-Market Activities

June 5, 2019

Session VI: Neutron Science - APS Perspectives & NCNR Overview

Welcome New Members

Dr. Vinton G. Cerf

Vice President and Chief
Internet Evangelist, Google
VCAT member (2007-2013)

**Dr. Mehmood
Khan**

Chief Executive Officer,
Life Biosciences

Dr. Eric Kaler

President,
University of Minnesota

Advanced Manufacturing

Cybersecurity & Privacy

Disaster Resilience

Technology Transfer

Measurement Dissemination

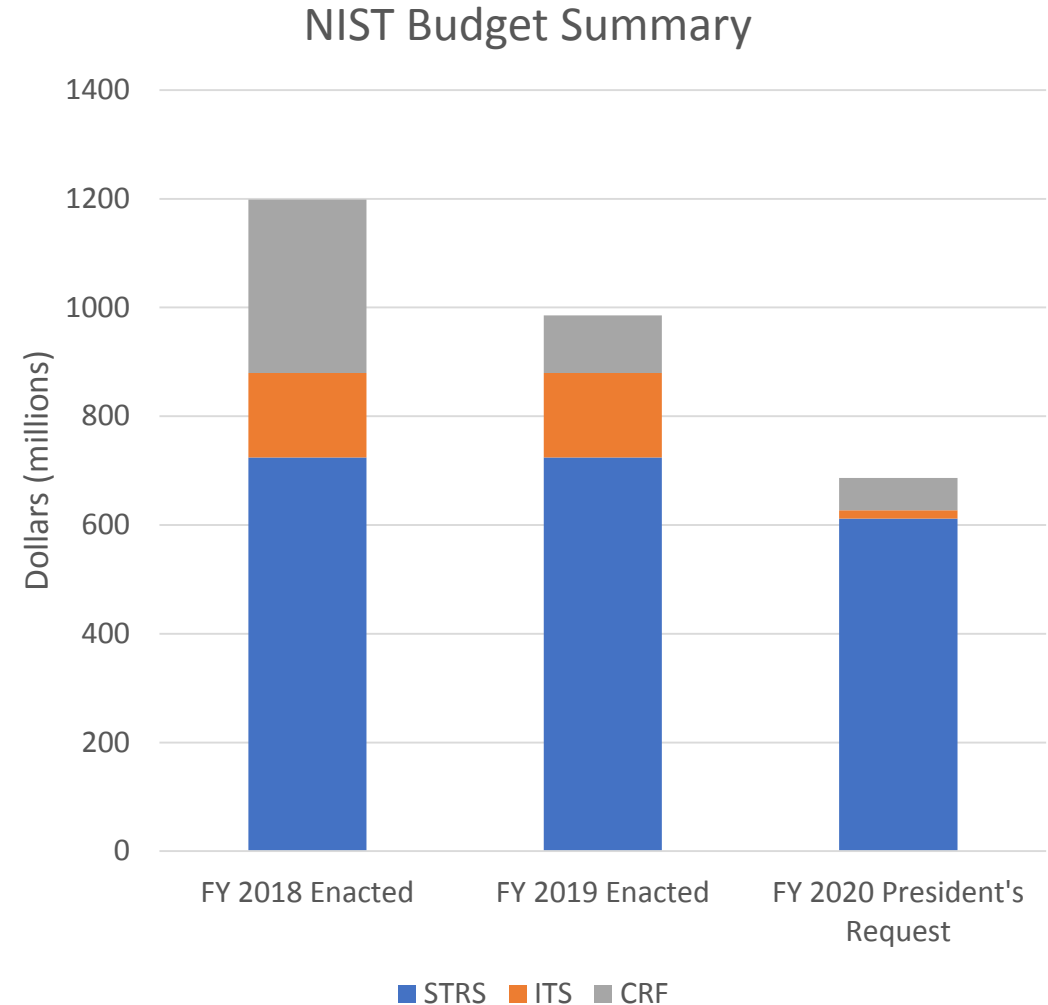

Quantum Science

Artificial Intelligence

The President's FY 2020 Budget:

- Prioritizes NIST's core measurement science mission
- Prioritizes support for NIST's role in quantum science, artificial intelligence, and microelectronics-related R&D
- Eliminates funding for MEP
- Supports NIST's Boulder Building 1 project (through the GSA Federal Capital Revolving Fund)

NIST BUDGET

| | FY 2017 Enacted | FY 2018 Enacted | FY 2019 Enacted | FY 2020 Pres. Request | FY 2020 House Mark | FY 2020 Senate Mark |
|---|--------------------|--------------------|--------------------|-----------------------------|--------------------------|---------------------------|
| Laboratory Programs (STRS) | \$690.0 | \$724.5 | \$724.5 | \$611.7 | \$751.0 | NA |
| Hollings Mfg Ext Partnership (MEP) | \$128.0 | \$140.0 | \$140.0 | \$0.0 | \$154.0 | NA |
| Manufacturing USA | \$25.0 | \$15.0 | \$15.0 | \$15.2 | \$15.2 | NA |
| Construction & Renovation | \$109.0 | \$319.0 | \$106.0 | \$59.9 | \$120.0 | NA |
| Total | \$952.0 | \$1,198.5 | \$985.5 | \$686.8 | \$1,040.2 | NA |

Measurement Dissemination: Redefinition of the SI

- Two weeks ago (5/20/19) all SI units became based on fundamental standards
- Four of the seven base units changed due to replacement of the artifactual kg

ROI Final Green Paper

INVESTMENT
INITIATIVE

TO ADVANCE
THE PRESIDENT'S
MANAGEMENT
AGENDA

FINAL GREEN PAPER
APRIL 2019

UNLEASHING
AMERICAN
INNOVATION

NIST Special Publication 1234

- **Green Paper** published **April 24, 2019** as **NIST Special Publication 1234**
- 15 key findings to inform actions to modernize U.S. technology transfer legislation, policy and practice
- Thanks to VCAT Subcommittee on Technology Transfer
- Detailed discussion session later today - June 4, 2019
- Charter for VCAT Subcommittee: Next Steps

Next-Generation Atomic Clock

- Smaller than a coffee bean
- Vapor cell on a chip contains rubidium atoms
- Patent submitted
- Designed for manufacturability

Chip-Scale Photonic Thermometer

- Uses optical properties of materials to measure changes in temperature
- In joint development with an industry partner

2

CRADAs and partnerships - begun **execution**

4

New CRADAs and partnerships - in **discussions** with companies

4

Partnerships in discussion with **other agencies**

2

Working prototypes demonstrated

Advanced Manufacturing: Standards for Wearable Robotics

NIST leads an ASTM F48 standards committee on exoskeleton task performance

NIST is developing tests to determine how well the exoskeleton conforms to humans

Replication of NIST's test methods is underway by at least 9 organizations

Advanced Manufacturing: Using AI to Solve Industry's Robot Challenges

Agile Robotics for Industrial Automation Competition (ARIAC)

Calls on the community to solve real robot challenges faced by industry, with the goal of enabling industrial robots on the shop floors to be more productive, more autonomous, and to require less time from shop floor workers

- ARIAC 2019 offers \$17,500 in prizes to teams from academia and industry
- Participants develop a robot control system (software) to control a robot in a simulated environment
- Co-sponsors have included ABB Robotics, Dassault Systemes, IEEE, and Siemens

New IEEE Standards Study Group formed to develop robot agility test methods and standards, includes ARIAC participants

Advanced Manufacturing: Manufacturing USA

Mike Molnar testified in House Science Hearing “Revitalizing American Leadership in Advanced Manufacturing” (March 26, 2019)

Advanced Manufacturing identified by the White House as one of four *Industries of the Future* to fuel prosperity

15th Manufacturing USA Competition Active – DOE Cybersecurity Institute for Energy Efficient Manufacturing

March 6th visit of NIH Director Francis Collins and U.S. Senator Chris Coons to University of Delaware included NIIMBL Center Director Kelvin Lee (left)

New report:

The National-Level Economic Impact of the Manufacturing Extension Partnership (MEP): Estimates for Fiscal Year 2018

Prepared by W. E. Upjohn Institute (issued May 10, 2019)

| Forecast | Jobs | GDP | Output | Personal Income | Returns to Treasury | ROI Return on Investment |
|--|---------|---------|---------|-----------------|---------------------|-----------------------------|
| Constrained Model Using Firm Variables | 236,802 | \$24.9* | \$46.6* | \$15.0* | \$2.02* | 14.4:1 |

* Dollars in billions

Engineering Biology: NIST Genome Editing Workshop May 3, 2019

1. Coordinated recent federal investments and efforts (NIST, NIH, DARPA, FDA)
2. Shared recent measurement and technology innovations as well as challenges
3. Refined work plans to develop precompetitive measurement solutions (31+ consortium members)
4. Agreed to leverage NIST Genome in a Bottle standards and data

Advanced Communications: 5G Efforts

NIST Public Safety Innovation Accelerator Program awardee: Spectronn

- Spectronn developed a “mobile edge-computing-in-a-box” system
- Multi-networking technology funded by NIST allows public safety to have reliable data streams
- Technology implemented for the Brookline, MA police department during the 2019 Boston Marathon (April 15)

175+ participants in NIST 5G mmWave Channel Model Alliance (Intel, Nokia, Qualcomm, Facebook, etc.)

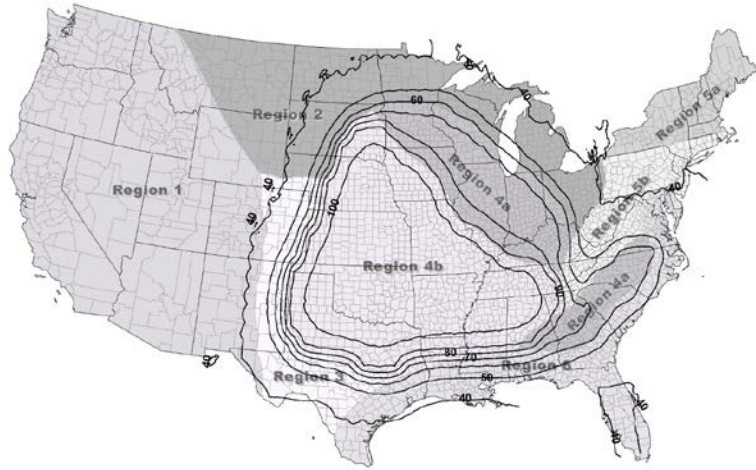

NIST’s 5G and Beyond program is providing industry with robust metrology tools and data

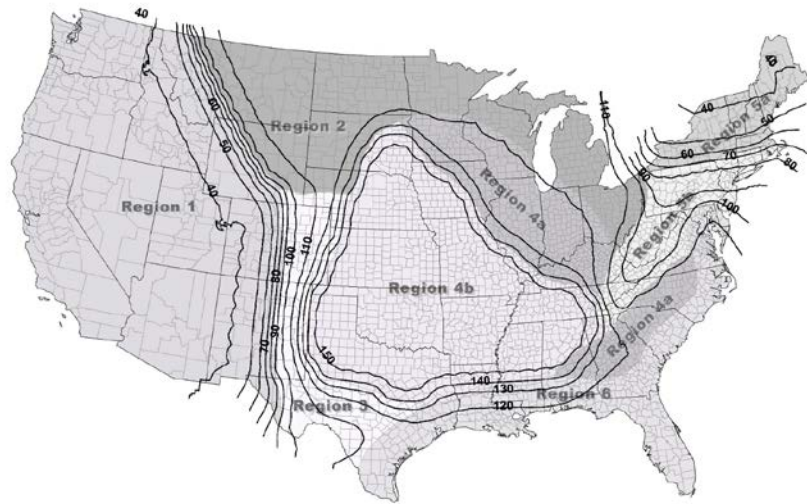

Active engagement with other agencies and the private sector on 5G standards

Resilience: Tornado Hazard Maps

Point Target

06_Kriging_sm_ave_1DegS_subregion_3000yr

4,000,000 SF Target Area

06_Kriging_sm_ave_1DegS_subregion_3000yr

NIST developed first-of-a-kind probabilistic tornado maps for the contiguous United States

Maps will enable development of national standards and codes for tornado resistant buildings

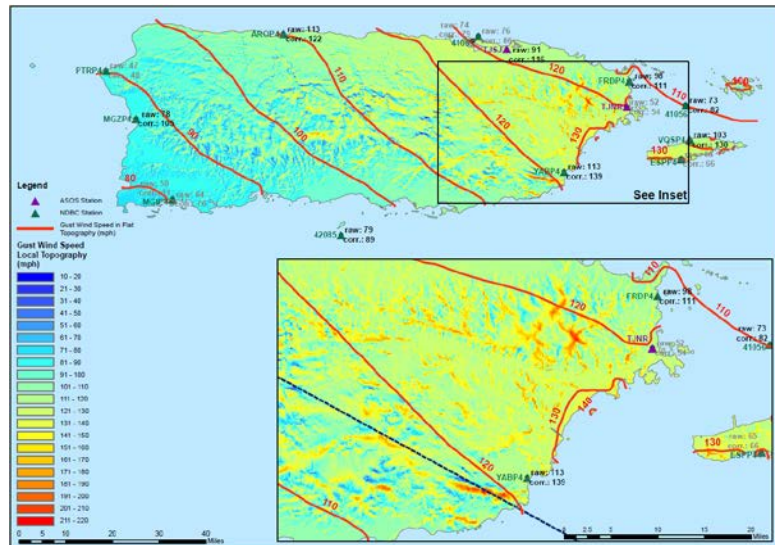

Proposed for incorporation into next edition of American Society of Civil Engineers standards (ASCE 7)

NIST developed a hurricane vortex model to fit Maria's track

- Model shows peak wind gusts over 200 mph in some regions
- Model's hazard characterization used by six other technical projects in the NIST Hurricane Maria Program

Also: NIST MEP - Funding and support for Puerto Rico business recovery

Privacy Framework

- RFI Summary Analysis & Privacy Framework Outline (2.27.2019)
- Privacy Framework Discussion Draft (4.30.2019)

Cybersecurity Framework

- Roadmap for Cybersecurity Framework Version 1.1 (4.25.2019)

Cybersecurity for IoT

- Released Considerations for a Core IoT Cybersecurity Capabilities Baseline discussion draft for public comment (2.4.2019)

February 11, 2019 Executive Order: *Maintaining American Leadership in Artificial Intelligence*

- NIST developing a Plan for Federal Engagement in AI Standards, pursuant to Executive Order
- Request for Information and Public Workshop to solicit input for plan
 - NIST AI standards event May 30, 2019
- Session on AI later today

- NIST engages in a wide variety of ways with domestic and international partners
 - International engagement is a core function of NIST, as described in the *NIST Organic Act* (15 USC 272)
 - To stay at the forefront in S&T, this engagement is crucial
- In order to do this safely, we must
 - Take the threat of academic espionage seriously
 - Have policies and procedures in place to vet foreign nationals and follow relevant DOC/State Department policies
- For each visiting researcher, senior leadership balances engagement benefit against risk

- Begin installation of cyberlocks restricting access to labs and offices this fiscal year
- Foreign National Request Form to be made compliant with DOC policy
- PIV cards to be scanned electronically at all entrance gates (Gaithersburg)
- Consistent policies for escorts for contractors (at sites of new/refurbished buildings)
- Policy for Denial of Access to be instituted
- Security Assessments of both Boulder and Gaithersburg to be done

*Invited Speaker Dr. Freeman A. Hrabowski, III (President, UMBC)
at the first NIST Inclusivity Summit, held April 30th
for all managers and supervisors*

Some of the Efforts Underway:

Diversity, Inclusivity and Equity Conversations

- From top leadership to all parts of NIST, inclusivity is part of our conversations

External Assessment

- Analysis of Equity Disparity in NIST STEM Career Advancement – *Procurement underway*

Graduate Student Measurement Science and Engineering (GMSE) Fellowship Program

- Administered through a grant with National Physical Science Consortium

NIST International Engagements

Leadership roles:

Jim Olthoff elected as Vice President of CIPM (International Committee of Weights and Measures)

- Influencing worldwide uniformity in measurements

Claire Saundry elected as President of SIM (Regional Metrology Group for the Americas)

- Steering Inter-American measurement infrastructure

Engagement opportunities:

- Standards, ICT and cybersecurity expertise supporting US trade discussions (EC, UK)
- Shaping outcomes of the G20 digital economy and G7 ICT workstreams:
 - Cybersecurity
 - AI
 - Standards
 - Innovation
 - Data flows and privacy

2019 NIST - ANSI Memorandum of Understanding

- First signed in 1995
- Affirms NIST and ANSI's respective roles
- Private-public partnership nature of US standards system

Raising awareness of strategic importance of standards for the nation

- Emerging tech (e.g. 5G, AI, etc.)
 - Policymaker engagement with the White House and on Capitol Hill
- Innovation and competitiveness
 - Standards Essential Patents(SEP) policies - balancing rights of licensors and licensees

ANSI CEO Joe Bhatia and NIST Director Copan signing the ANSI-NIST MOU. April 29, 2019

- NIST represented at the White House Academic Roundtable on Innovation in Quantum Information Science - May 31, 2019
- Participants included NIST Joint Institute academic partners in QIS
 - JILA: University of Colorado – Boulder
 - JQI / QuICS: University of Maryland
- NIST / SRI Quantum Economic Development Consortium – 60+ corporate members

With former NIST Director Willie May, Morgan State University
Preparing the future quantum workforce

NIST Realignment – Background

- Competitive global economy of 21st century: New challenges for U.S.A. and NIST
- Economic competitiveness → National security
- NIST must visibly fulfill the Agency's national responsibilities
 - U.S. leadership for Metrology, Standards & Technology
 - Advanced Manufacturing
 - Technology transfer policy development and implementation government-wide
- ADLP as Principal Deputy to the NIST Director will elevate standards policy, NIST international leadership role, facilitate cross-cutting interdisciplinary research & development, with enduring focus on innovation.
- Foster development of human capital, cultivate our talent pipeline for diversity and a culture of inclusivity, integrate our strategic planning NIST-wide, and maximize synergies for organizational effectiveness

NIST Realignment – 2019

New:

- Director Technology Transfer: NIST internal and national technology transfer programs
- Chief Human Capital Officer: Integrated support for NIST Federal employees & Associates
- Director Strategy and Policy: Incorporating Program Coordination Office

Realigned:

- International and Academic Affairs – ADLP
 - Human Subjects Protection Office – ADLP
 - Onboarding Office – Human Capital
 - Associates Support - Integrated NIST-wide with Human Capital
 - Technology Discovery Office - Technology Transfer
-
- Public Affairs – Unifying NIST branding

NIST Organization 2020

National Technical Information Service (NTIS)

NIST Director / Under Secretary of Commerce for Standards and Technology

Office of Chief Counsel

Office of Policy & Strategic Planning

Associate Director for Laboratory Programs (ADLP)

Associate Director of Innovation and Industry Services (ADIIS)

Associate Director of Management Resources (ADMR)

Chief of Staff

Laboratory Programs

Communications Technology Laboratory
Engineering Laboratory
Information Technology Laboratory
Material Measurement Laboratory
NIST Center for Neutron Research
Physical Measurement Laboratory
Center for Nanoscale Science and Technology

Human Subjects Protection

Impressive
accomplishments
across NIST
Too many to fit here
Congratulations all!

Meeting Agenda

June 4, 2019

Session I: NIST Update

Session II: Administration's Priorities for Science and Technology

Session III: NIST Strategic Plan – Positioning for a Changing S&T Environment

Session IV: Update on NIST Activities in Emerging Technologies

Session V: Update on NIST Lab to Market Activities

June 5, 2019

Session VI: APS Perspectives & NCNR Overview

DISCUSSION
