

NIST INNOVATIVE TECHNOLOGIES SHOWCASE

Transferring Invention and Innovation to Commercialization

The Technology Partnerships Office (TPO) at the National Institute of Standards and Technology (NIST) is excited to invite you to participate in the NIST Innovative Technologies Showcase event!

The showcase will include:

- Select presentations by NIST researchers describing cutting-edge technologies
- Panel Discussion to discover how to collaborate or license a NIST technology

REGISTER NOW

FEATURED TECHNOLOGIES & SPEAKERS

Photonic Dosimeter and Calorimeter Technology

Zeeshan Ahmed, Ph.D.,
Senior Scientist, National Institute of Standards and Technology

Smart-Mirror: Noninvasively Measuring Laser Power Technology

Paul Williams, Ph.D.,
Physicist, National Institute of Standards and Technology

Optical Flow Meter and Serial Cytometry Technology

Greg Cooksey, Ph.D.,
Biomedical Engineer, National Institute of Standards and Technology

Paul Patrone Ph.D.,
Staff Scientist, National Institute of Standards and Technology
