# Draft IoT AB Timeline to Complete Report Publication in April 2024

# Report structure

Section	Purpose	Content
Executive Summary	Summary of content, findings and recommendations	<ul style="list-style-type: none"><li>• Introduction and overview</li><li>• Summary of the most important content in introduction to IoT section</li><li>• Table of findings</li><li>• Table of recommendations</li></ul>
Introduction and overview to IoT	Brief “level setting” about IoT including overview, benefits, capabilities, vision and state of industry	<ul style="list-style-type: none"><li>• What can IoT do?</li><li>• Specific “types” of IoT</li><li>• Current state of IoT</li><li>• The future of IoT</li></ul>
Findings	Discussion of opportunities and challenges we learned from speakers, research and sub team discussions. Findings should lead to recommendations	<ul style="list-style-type: none"><li>• General findings (cross industry)</li><li>• Industry findings</li></ul>
Recommendations	Recommendations of the board based on input from speakers, team discussions and other sources. Recommendations should map to one or more findings.	Recommendations are organized into six themes <ul style="list-style-type: none"><li>• Government leadership</li><li>• Establish trust in IoT</li><li>• Modernize infrastructure</li><li>• Connect and secure the supply chain</li><li>• IoT ready workforce</li><li>• Facilitate industry adoption</li></ul>
Other	Miscellaneous content that doesn't fit into above categories	<ul style="list-style-type: none"><li>• Introduction</li><li>• Background</li><li>• Glossary</li><li>• Appendix content</li><li>• Compliance matrix</li><li>• IoT stakeholders</li></ul>

# Board perspectives

16 members, 16 voices

January 2023 to December 2023

- Listening
- Recommending
- Validating

One board, one voice, one report

January 2024 to March 2024

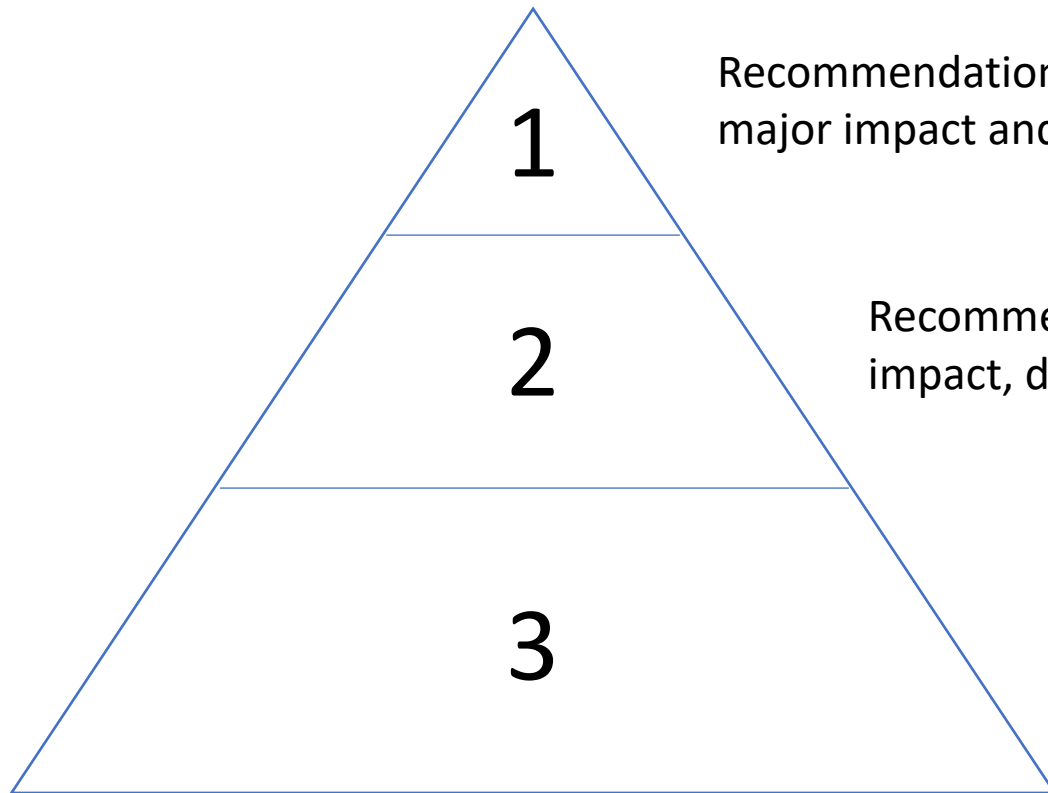

- Refining
- Connecting
- Storytelling

# Paring down content (Target 150 pages)

- Consolidate
  - Redundant sections and content
  - Similar recommendations across industries
- Simplify
  - Cut anything that doesn't directly support the main recommendations, or is important, insightful or relevant
  - Cut anything that will "clutter" up the main messages, findings and recommendations
  - Cut anything that doesn't have any industry or data to support it
  - Cut anything that is "out of scope"
  - If you or the FWG can't understand it, simplify it or cut it
  - Identify content where it can be replaced by a graphic or infographic
- Retain
  - Identify the most important, impactful and "move the needle" recommendations
  - Cut or move to appendix "supplementary" recommendations

# Recommendations categorization considerations

1  
Recommendations that are strategic, bold, and will have the major impact and whose exclusion will cause someone to notice

2  
Recommendations that are strategic “quick wins” – big impact, doable in the short term (existing infrastructure, etc.)

3  
Recommendations that

- If we eliminate, no one will notice or care
- Risks confusing or masking the main recommendations (“forest for the trees”)

# Gaps in content approach

Gap	Closure approach	Where
Missing recommendations	Create new recommendations	<ul style="list-style-type: none"><li>• Public Safety</li><li>• Healthcare</li><li>• Supply chain (logistics)</li></ul>
Missing findings	Create new findings	<ul style="list-style-type: none"><li>• TBD</li></ul>
Industry verticals	Create finding and add commentary or infographic to it	<ul style="list-style-type: none"><li>• Healthcare (see IoMT writeup in findings)</li></ul>
NDAA topics	Create finding and add commentary or infographic to it	<ul style="list-style-type: none"><li>• Small business</li></ul>
Other	tbd	<ul style="list-style-type: none"><li>• tbd</li></ul>
