Global Cloud Computing: Security Angle

Danielle Kriz

Director, Global Cybersecurity Policy

November 4, 2010

About ITI

- One of the main high-tech trade associations in Washington
- 44 of the largest companies in the world
 - Hardware, software, and services
- Three focus areas
 - Energy and Environment
 - Government Relations
 - Global Policy
- Particular expertise in trade, standards

ITI's Cybersecurity Committee

- Address cybersecurity market access concerns
- Encourage the development and use of internationally accepted best practices and standards
- Help to shape U.S. legislative solutions that will meet domestic security needs while similarly recognizing the global nature of the cyber marketplace
