

Accelerating the MBE Ecosystem Through Cultural Transformation

NIST MBE Summit 2020

April 1, 2020

Daniel Seal
Senior Manager, PLM
The Boeing Company
St. Louis, MO, USA

Jason Hatakeyama
BDS Chief Architect
and Director, PLM
The Boeing Company
El Segundo, CA, USA

Don Farr
Senior Technical Fellow
Boeing Research & Technology
The Boeing Company
Huntsville, AL, USA

Don Farr - Biography

Don Farr

- 29 years at Boeing, 5 years at General Dynamics
- Senior Technical Fellow in Model Based Engineering at Boeing Research & Technology in Huntsville, Al
- System Engineer for over 35 years on dozens of programs:
 - F-22, F-16, F-111, and A-12
 - RAH-66 Comanche Helicopter
 - F-15 Eagle, F/A-18 Super Hornet
 - 777x, 737, 787 Dream Liner
 - Ground Based Missile Defense
 - Systems of System Programs
 - Research and Development Programs
- BSEE from Lamar University, Texas
- MSEE from University of Delaware

Technology and Cultural Transformation are Interrelated

Technology [tek-nol-uh-jee]

SOURCE: [Dictionary.com](https://www.dictionary.com)

noun,

1. the branch of knowledge that deals with the creation and use of technical means and their interrelation with life, society, and the environment, drawing upon such subjects as industrial arts, engineering, applied science, and pure science.
2. the application of this knowledge for practical ends.
3. the terminology of an art, science, etc.; technical nomenclature.
4. a scientific or industrial process, invention, method, or the like.
5. the sum of the ways in which social groups provide themselves with the material objects of their civilization.

Boeing's digital transformation... it's cultural

Boeing — the aerospace giant — attended last month's Cloud Foundry Summit in Basel, and spoke to Information Age about its digital transformation efforts

Enterprise transformation is daunting. It is important for whoever is leading it, to invest in the right places; or accelerate and invest further in the places where you see more value.

“Culture eats strategy for lunch”
- attributed to Peter Drucker

Technology and culture are intertwined. You cannot accelerate the MBE ecosystem without addressing workforce cultural transformation

Process

Data

Where the savings will come from

OUR STRATEGY

1 Common Architecture that easily adapts to changing business priorities.

2 Digital Thread that increases visibility of work throughout our value streams.

3 Process Improvements that standardize the way we work.

4 Agile Work Processes that drive efficiency, productivity and faster insights.

5 “Out-of-the-Box” capabilities without the need for customization.

6 Culture that empowers cross-functional collaboration through process, data and technical integration across Boeing.

A **company-wide** initiative transforming Boeing through **process** improvements, **data** management and **technology** enhancements.

Boeing's Model-Based Lexicon - A Common Language

Model-Based Enterprise

AN ORGANIZATION that applies modeling & simulation technologies to integrate and manage its technical and business processes (NIST)

TRANSFORM BOEING to a Model-Based Enterprise (Industry 4.0)

DIGITAL Boeing Business Capabilities

Model-Based Engineering

AN APPROACH to product development, manufacturing, and lifecycle support that uses a digital model and simulation to drive first time quality and reliability (NIST)

CONNECT VALUE-STREAMS for digital lifecycle data-flow (Digital Thread)

ARCHITECTED digital work/info-flow

Model-Based Systems Engineering

EXECUTION OF DISCIPLINE (Systems Engineering) using digital model principles for system level modeling & simulation of physical and operational behavior throughout the system lifecycle (INCOSE)

EMPLOY System-level modeling & simulation (Digital System Model)

SIMULATED digital work/info-flow

Model-Based Definition

A PART'S DEFINITION using a 3D model. May define feature and part characteristics within the 3D model. Industry format standard: ASME Y14.41. Boeing format: BDS-600

DEFINE product using 3D model standards

FULLY DIMENSIONED definition

Model-Based Instructions

GRAPHICAL DISPLAY of information necessary for build/assembly, including MBD engineering intent (process specs, geometric dimensions & tolerances, etc.) (NIST)

BUILD product using 3D model standards

FULLY DIMENSIONED product

MBE Diamond Symbol - *a Framework for MBE*

- The bottom-half of the Diamond represents **Physical System** (retaining traditional SE “V” flow)
- The top-half of the Diamond represents the “**Virtual**” Systems (i.e. the virtual representation of the physical systems)
- The interior of the Diamond represents the “**Digital Thread**” linking models/simulations to the physical systems design

Workforce Training - “Raising the Digital IQ” / MBE Awareness

MBE Community of Excellence

Model Based Engineering
Closing the gap between the virtual world and reality.

Watch our welcome video.
Join our inSite Community.

Watch the MBE Strategy and Transformation videos on Degreed.com.

Past Technical Exchange Presentations can be found under the Technical Exchange Body of Knowledge link and on the inSite Video page.

Check out the Events section to see upcoming Technical Exchange topics.

Upcoming Events:

- Jul 16** MBE COE Technical Exchange—BCA Seats Integration with Angela Natale, Caroline Saxton, and Team. 11:00 AM. Virtual.
- Aug 20** MBE COE Technical Exchange—2CES Analysis and Simulation Integration with Beverley Cooper, Marcus Dunavan, and Team. 11:00 AM. Virtual.
- Sep 17** MBE COE Technical Exchange—Enterprise MBSE Implementation with Tony O'Hare. 11:00 AM. Virtual.

Over 2,500 members enterprise-wide!

MBA Awareness Training

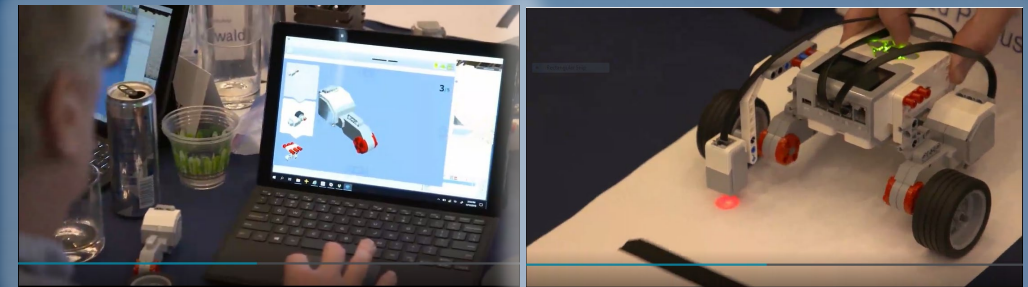

- **“Digital Transformation”** (18 hrs) - Foundational awareness of Boeing’s Digital Transformation. Employees should understand MBE core concepts and value to develop their own Digital Literacy.
- **“MBE Strategy & Transformation Awareness” Learning** (3 hrs) - Outlines the strategy, benefits, opportunities and common terminology behind the enterprise wide implementation of MBE.
 - **100% of Boeing Engineering Managers have completed this MBE Training with their teams!**
- **“MBE Strategy & Transformation Awareness”** (1 hr) Training on the importance of MBE and the move towards a more agile environment.
- **“Demystifying Digital Transformation”** (1 hr) – CTO presentation on Digital Transformation at Boeing.

Program MBE Commitment Event

- 2 day event for program Chief Engineers
- Gain program alignment on MBE Taxonomy
- Understand the business value of MBE
- Assess current state of MBE implementation on programs (i.e. MBE Maturity Assessment)
- Obtain program commitments to future state MBE implementation

Hands-on MBE demo using Lego Mindstorm

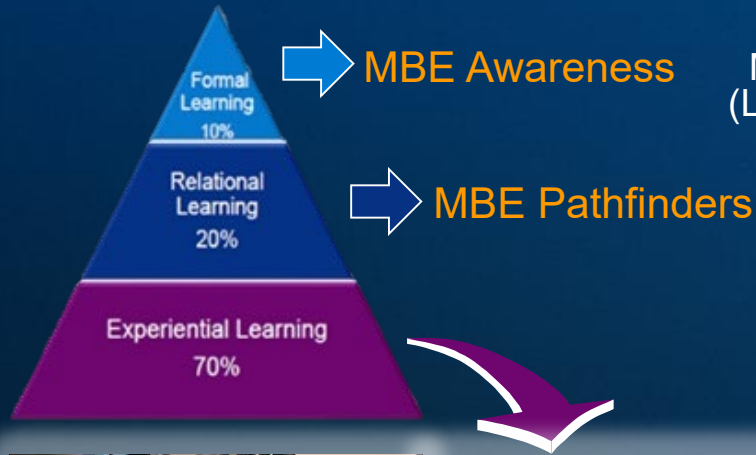

Learn MBE fundamentals by doing MBE!

MBE Fundamentals Using Lego MindStorm

FUNCTIONAL - start, stop, drive forward/backward, steer, detect, sense / avoid?...

LOGICAL - motor, wheels, steering, light sensor, computer, software, power source (batteries), wiring,...

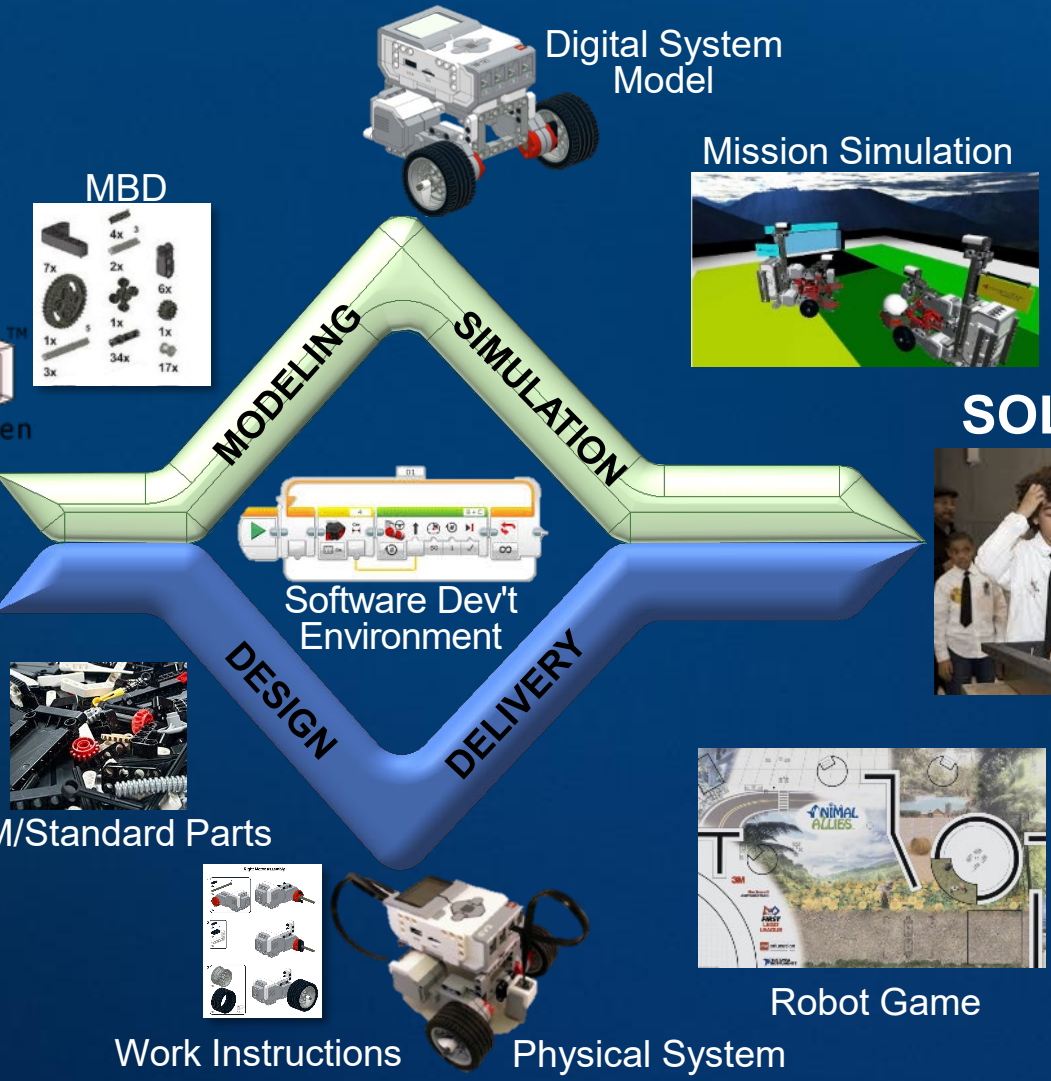

Mission Needs (Lego Challenge)

Functional Models

NEEDS

“Learn MBE by doing MBE!”

MBE “Starter Kits” - Accelerating MBE Deployment in Boeing

- An “MBE Starter Kit” is a **set of resources** (people, processes, tools, training, architectures, models) to implement a specific portion of the **MBE value chain**.
- MBE Starter Kits **connect models across multiple engineering domains** to extract the maximum value from the **Digital Thread** and enable programs to **operate differently** to achieve **champion-level performance**.
- MBE Starter Kits are created from **artifacts** (e.g. playbook, tip sheets, checklists, templates, etc...) **proven successful by MBE pathfinders**.
- MBE Starter Kits enable programs to **start (or continue) their MBE journey** along a proven-successful path to digital transformation.
- MBE Starter Kits will be **developed and managed by Enterprise Functional Leaders** and will continue to evolve and be updated as a result lessons learned from utilization, technology or regulatory changes.
