MAIN RAW MATERIAL
NYLON 6

A CIRCULAR ECONOMY PERSPECTIVE

**ECONYL® nylon is
made from 100% waste instead of oil.**

**It can be regenerated an infinite number of
times without compromising quality.**

ECONYL®
ENDLESS POSSIBILITIES

Moreover, through our regeneration process, ECONYL[®] resin can guarantee the same technical and quality performance as Nylon 6 obtained from fossil fuel's origin raw material.

ECONYL[®] Nylon can be recycled an infinite number of times, becoming the sustainable solution for the Nylon 6 industry.

The main sources

Pre-consumer
waste

Post-industrial
waste

Post-consumer
waste

How Carpet is Made

3 components:

NYLON

polypropylene

calcium
carbonate

ECONYL[®]
