WHAT ATTENDEES ARE SAYING

“ ”

[I liked] the organization of the overall event as well as being able to **keep the conversation going on LinkedIn** where I was able to create new contacts instantly.

Wish it could have been **in person** this year!

2021 **technology delivery was excellent**, no connective issues. I did not need it but the preparation information and **support seemed improved** over 2020.

Q&A sessions were **too short**.

The on-demand aspect enabled me to view sessions at times that **worked with my local time commitments**.

For a virtual program it has been the **best one I have attended!** Well planned, the virtual delivery was outstanding.

On-demand sessions should be **available to view ahead of time** as much as possible...to prepare for the Q&A sessions.

It was **easier to navigate** all the options this year, and to get links to the plenary sessions.

There was a lot of **relevant content**. Particularly the on-demand sessions had a nice set of **cross-references** to other content which was my **favorite method of navigation** through the content.

INTEREST IN ATTENDING IN PERSON 2022

4.4
(out of 5)

(5 = VERY LIKELY
TO ATTEND)

WE'RE **EXCITED**
TO SEE **YOU**
IN **SAN DIEGO!***

*PSCR plans to offer virtual components in 2022 as well.
We hope you'll join us for this hybrid event!
