General Comment

During the 2020 general election, I was hesitant to visit my local voting office because of the pandemic. I requested an absentee ballot. Because I am blind I was unable to complete the ballot and sign it without the assistance of my wife. While I trust that my wife voted in the manner I wanted, I lost the ability to independently complete the ballot and return it. I have voted for more than 50 years. Since I lost my eyesight more than 25 years ago, I have not felt the same sense of independence in casting my ballot that I did when I was sighted. The technology, security and mechanisms are available to give me that freedom. Please help make it available to me.
