General Comment

As a person who can't drive due to a visual impairment, I greatly value having accessible options for voting. When voting locations are limited, I can testify that my ability to participate is greatly curtailed - and I can only imagine how many elderly, disabled, and hardworking individuals are likewise impacted by these restrictions. In Washington state, we have long voted by mail-in ballot and it works beautifully. Not only can I make my voice heard without losing out on hours of employment, I also don't need to travel to submit my ballot. Please make a stand for voting rights - for me and for others like me.
