

Quantifying the Power of Distributed Energy Resources

National Institute of Standards and Technology (NIST) Workshop

Downtown Conference Center – 13th Floor
157 William Street, New York, NY

Tuesday, December 6, 2016

8:30 a.m.-5:00 p.m.

Workshop Agenda

8:00 am	Registration and Networking
8:30 am	Welcome, Overview from NIST <ul style="list-style-type: none">• Avi Gopstein, <i>Smart Grid Program Manager – NIST</i>
8:45 am	Plenary Session 1: <i>Quantifying Distributed Energy Resource (DER) Economics</i> <ul style="list-style-type: none">• Mats Bergquist, <i>Principal of Project Design – Constellation Energy</i>• Lawrence Orsini, <i>Founder – LO3 Energy</i>• Steve Bushby, <i>Mechanical Systems and Controls Lead – NIST</i>
10:00 am	Break
10:15 am	Breakout Session 1: <i>Quantifying DER Economics</i>
12:00 pm	Lunch (on your own)
1:15 pm	NIST Transactive Energy Challenge <ul style="list-style-type: none">• David Holmberg, <i>TE Challenge Lead – NIST</i>
1:30 pm	Plenary Session 2: <i>Validating DER Models</i> <ul style="list-style-type: none">• James Gallagher, <i>Executive Director – New York State Smart Grid Consortium</i>• Marty Burns, <i>Electronics Engineer – NIST</i>
2:30 pm	Break
2:45 pm	Breakout Session 2: <i>Validating DER Models</i>
4:00 pm	Break and return to Plenary – <i>Prep for Report Outs</i>
4:15 pm	Report Outs from Breakout Sessions
4:45 pm	Closing Remarks from NIST
5:00 pm	Adjourn Meeting
