PROBLEMS

CTI is the
ANSWER

Part 2:
“Fixing The Problem”

The **Cyberspace Training Initiative (CTI)**
Developed to address **DoDs lack of an
integrated training approach** that
incorporates joint cyber education, training
and exercises, as well as robust, timely and
rapidly-developed cyber modeling and
simulation capabilities, **to meet
Joint Force Commanders'
requirements to operate in
and through cyberspace.**

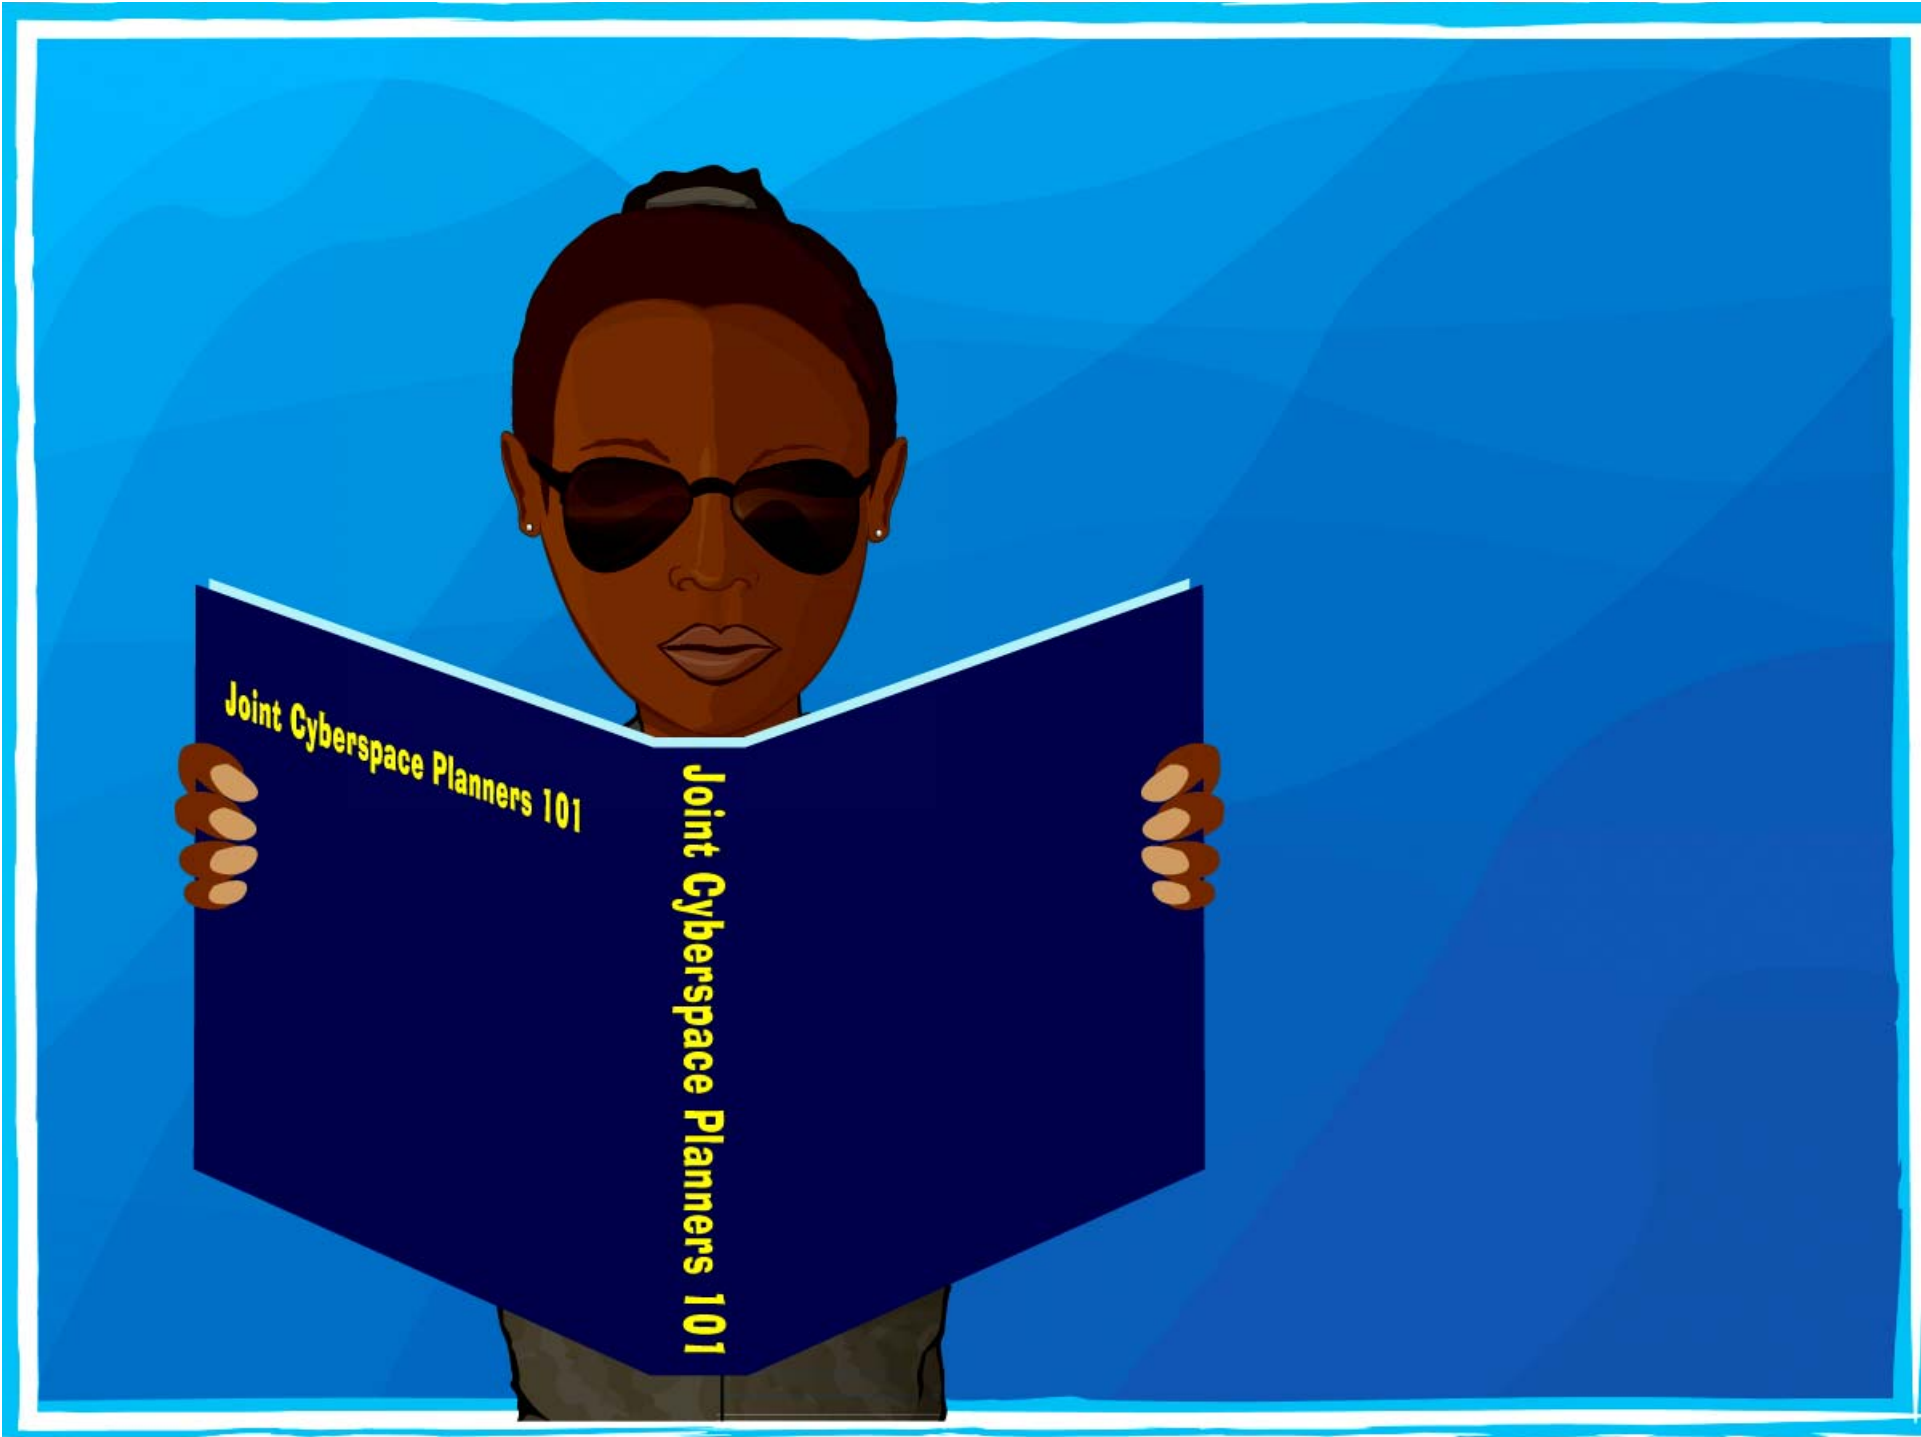

The end state is to have forces **trained** through an integrated approach that incorporates joint cyber education, training and exercise methods using robust live, virtual and constructive mode and media capabilities across the **Joint Learning Continuum (JLC)**.

CTI COMPONENTS

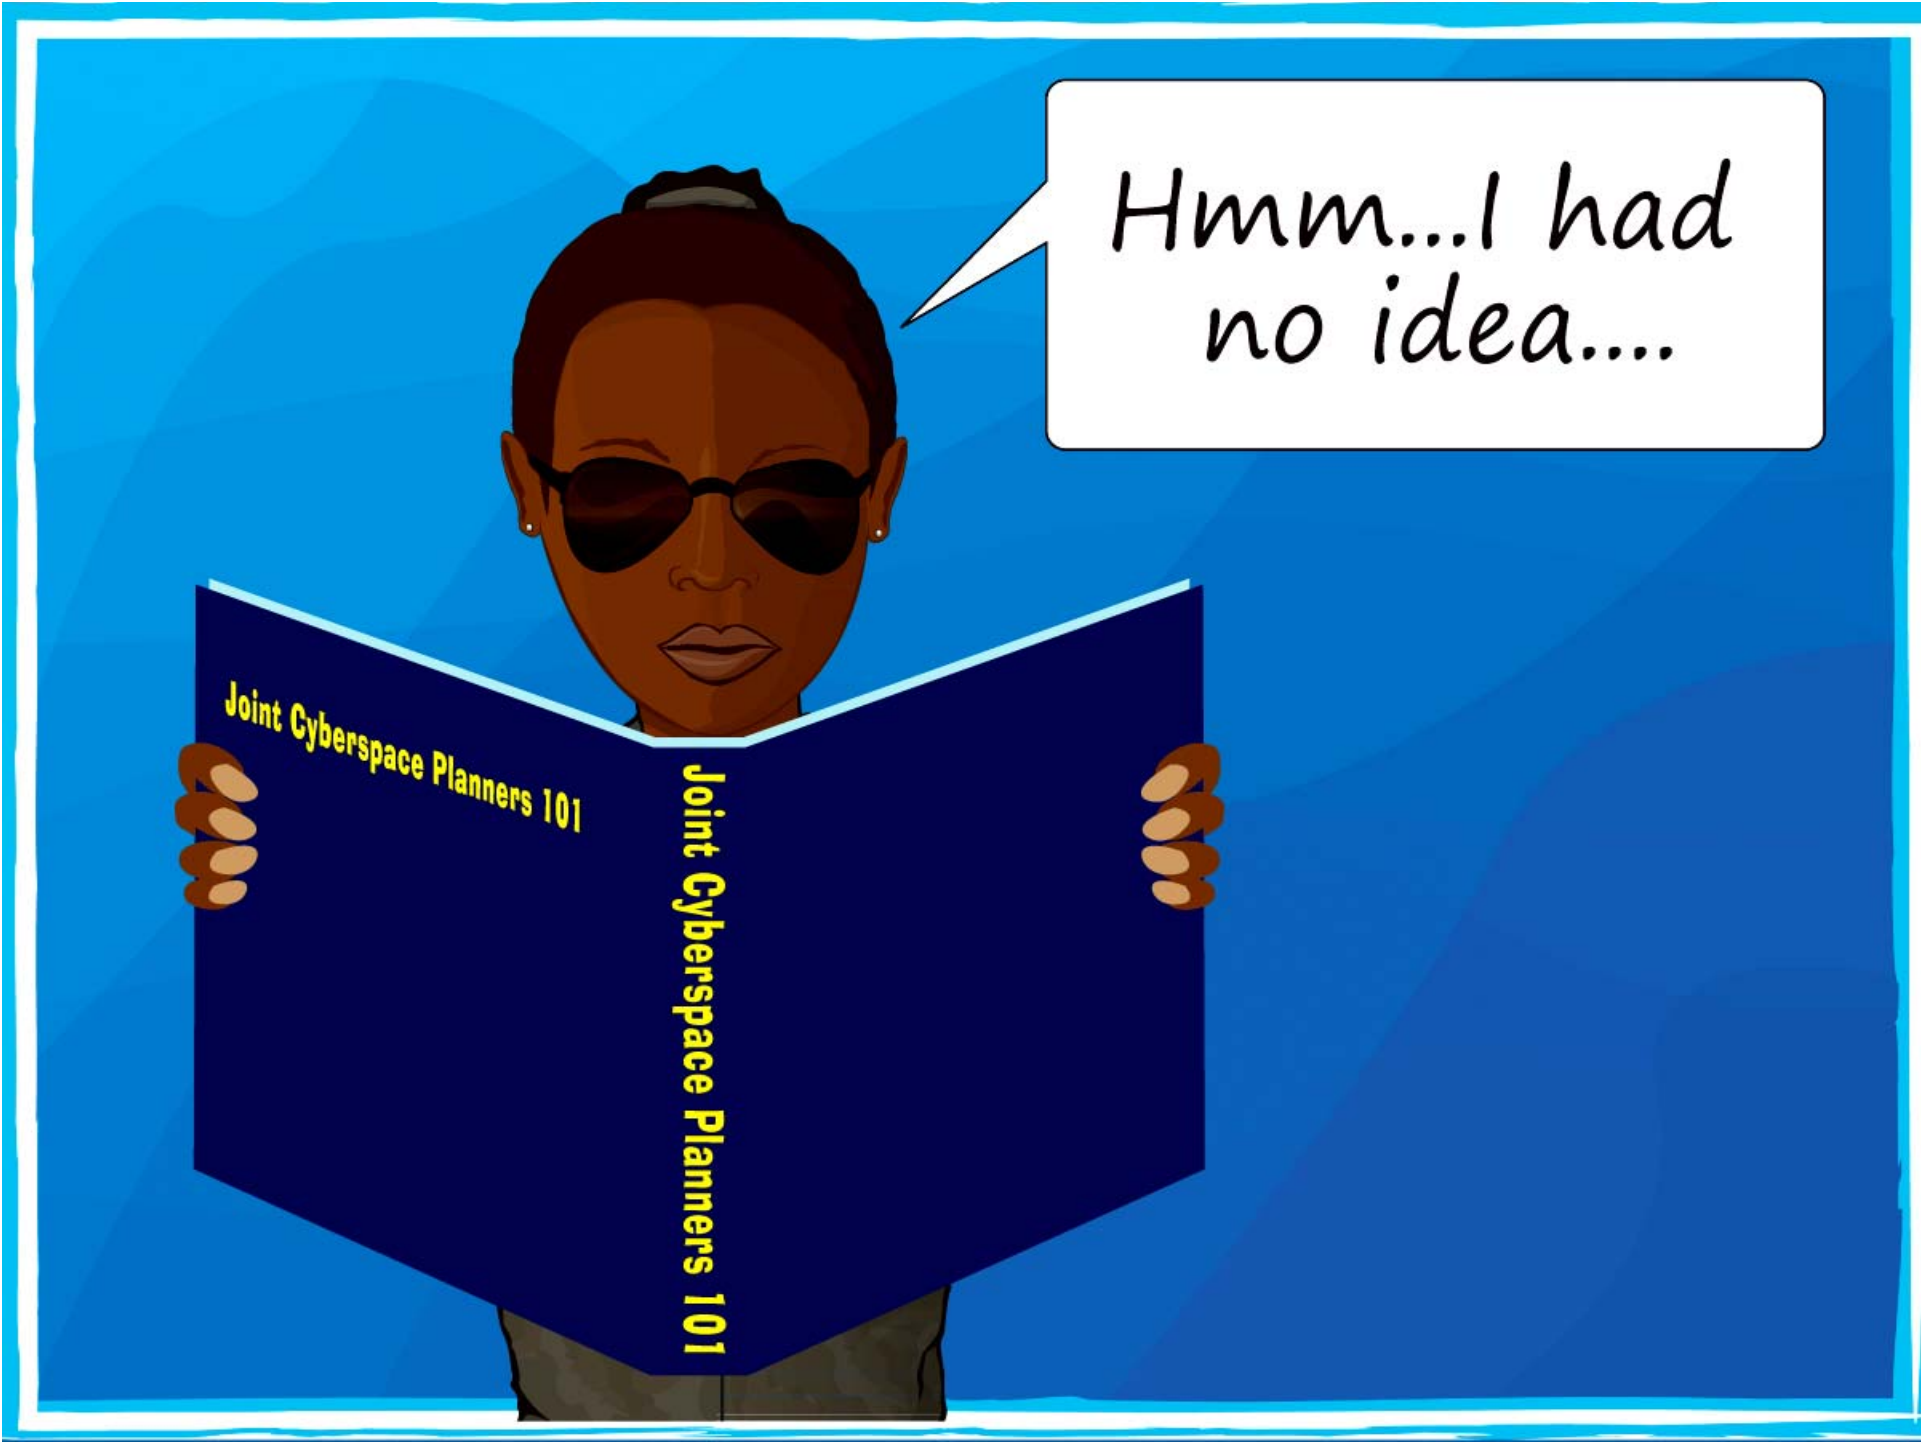

- 1: Cyberspace Joint Learning/Force Development**
- 2: Cyber Focused Exercise Development**
- 3: Cyber Training Events (Cyber Flag)**
- 4: Modeling and Simulation**
- 5: Network Defense/Red Teams**
- 6: User Awareness Training**

Joint Cyberspace Planners 101

Joint Cyberspace Planners 101

A cartoon illustration of a woman with dark skin and hair pulled back, wearing dark sunglasses. She is holding a large, dark blue book open in front of her. The book has the title 'Joint Cyberspace Planners 101' written on both the left and right pages in yellow text. A white speech bubble with a black outline points to her head, containing the text 'Hmm...I had no idea....'. The background is a solid blue color with a subtle gradient.

Hmm...I had
no idea....
