Mission & Vision

Mission:

Our mission is to enable every digital citizen to live, work and play safely in the cyber world.

VISION:

Our vision is to create a safe digital neighborhood that is both resistant to cyber-threats and resilient to man-made or natural disasters, where our citizens, businesses, organizations and government can effectively and securely navigate, collaborate and compete in today's fast-changing technological environment. The secure cyber city model we establish will empower our citizens and serve as a beacon for cities across North America and the world.

Work in Workgroups

- **Awareness:** increase visibility of cybersecurity best practices, foster a unified message and promote programs and campaigns that help digital citizens stay safer in cyberspace.
- **Cluster:** **c**oordinate with local groups focused on economic development that are focused on cybersecurity and related businesses.
- **Critical Infrastructure:** engage with the eighteen industry segments that make up critical infrastructure elements and help ensure improved cyber security.
- **Education:** foster general and curriculum-based learning for all digital citizens..
- **Law Enforcement:** enhance cybercrime prevention and improved criminal implications
- **Metrics:** measure the success of projects, programs and campaigns; provide research data on cybersecurity issues.
- **Public/Private Partnerships:** facilitate interaction between the regional sectors, industry and government to support the SOeC mission.
- **Policy:** enlighten city, state and federal policy makers as it relates to cyber. work with local organizations to foster internal cybersecurity policies that protect business.
