

5th Cybersecurity Framework Workshop

North Carolina State University

November 14-15, 2013

Workshop Purpose: To engage stakeholders on the Preliminary Cybersecurity Framework and to discuss strategies around implementation and further development of the Framework.

Workshop Input: Preliminary Cybersecurity Framework <http://www.nist.gov/itl/cyberframework.cfm>

Draft Agenda

Thursday, November 14, 2013

8:00 AM Registration

Hunt Library Auditorium Lobby, NCSU
1070 Partners Way, Raleigh, NC

9:00 AM Welcome Plenary

Charles H. Romine, Director, Information Technology Laboratory, NIST
Dr. Randy Woodson, Chancellor, NCSU

9:30 AM Preliminary Cybersecurity Framework Overview

Moderator: Matt Eggers, U.S. Chamber of Commerce
Panelists:

Adam Sedgewick, NIST
Donna Dodson, NIST
Matt Scholl, NIST
Kevin Stine, NIST

10:45 AM Break

11:00 AM Privacy and Civil Liberties Panel

The Framework contains a methodology to protect privacy and civil liberties as directed by the Executive Order, and presented as Appendix B in the Preliminary Framework. This session will discuss the considerations for the privacy methodology, including the intended scope; how critical infrastructure organizations can best approach the impact on privacy and civil liberties arising from their cybersecurity programs; and the current state of maturity of privacy standards and best practices. Panelists will also discuss next steps and gaps that need to be addressed with respect to the integration of privacy and cybersecurity in the Framework.

Moderator: Ari Schwartz, NSS

Panelists:

Naomi Lefkowitz, NIST
Michelle Richardson, ACLU
Harriet Pearson, Hogan Lovells
Julie Snyder, MITRE
John Miller, Intel

12:15 PM Workshop Logistics and Rules of Engagement

Kiersten Todt, Liberty Group Ventures, LLC.

12:30 PM Lunch

1:45 PM Topic-Specific Working Sessions

Topic	Location (Room, Building)
Small and Medium Business Considerations	Convocation Center, College of Textiles (COT), Room 1
How to Use the Framework	Convocation Center, COT, Room 2
Voluntary Critical Infrastructure Cybersecurity Program	Convocation Center, COT, Room 3
Research and Development	Institute of Emerging Issues, Hunt Library, Room 1
Framework Ecosystem Development	Institute of Emerging Issues, Hunt Library, Room 2
Privacy and Civil Liberties	Monteith Research Center Room 246

3:15 PM Break

3:30 PM Topic-Specific Working Session 2- Same selection of groups and locations as shown above

5:00 PM Adjourn

Friday, November 15, 2013

8:00 AM Registration
Hunt Library Auditorium Lobby, NCSU
1070 Partners Way, Raleigh, NC

9:00 AM Plenary
Pat Gouhin, Executive Director and CEO, International Society of Automation

9:15 AM Perspectives from the Telecom Sector Panel
Many organizations, including critical infrastructure owners/operators, sector associations, standards organizations, and regulators, have a role to play in reducing cyber risks to critical infrastructure. This session will provide a sector-wide perspective on the Preliminary Framework and how a sector, and organizations within a sector, could use the Framework in a meaningful way to reduce those risks. Panelists will also discuss gaps and highlight opportunities for improving the Framework.

Moderator: Robert Mayer, US Telecom Association
Panelists: Jeff Goldthorp, FCC
Jean-Paul Emard, ATIS
Phil Agcaoili, Cox Communications
Chris Boyer, AT&T
Brian Allen, Time Warner Cable

10:15 AM Break

10:30 AM

Adoption Considerations for the Framework Panel

This panel will examine organization and sector views on managing cybersecurity risk and the elements of the Framework that could support those needs.

Moderator: Andy Grotto, Department of Commerce

Panelists:

Nicole Muryn, BITS

Kent Landfield, McAfee

Earl Crane, Promontory Financial Group

Johan Nye, ExxonMobil

11:30 AM

Closing Session – Next Steps

Donna Dodson, NIST

Samara Moore, NSS

Bob Kolasky, DHS

12:00 PM

Adjourn
